“Cross of Nails”

Lebanon Area Evangelical Free Church

The cross of nails is a metal sculpture depicting the riches of Christ. Its meaning is described as follows:

Our lives are a gift. Life is precious and God intended us to know him personally and fully. Some of us have lived our lives without him. We have walked past the cross and never noticed what Christ has for us.

Perhaps one day our lives change and we have our eyes opened to him. He changes us and we can now see the glorious riches he has for us.

The “Cross of Nails” is made from nails. From a distance, it look like a cross. From a closer view, one can notice words that are appear on it. The words become more noticeable as the viewer draws near to it. When the viewer is near, he can see words that describe the glorious riches of Christ. These are things like love, peace, victory, hope, joy etc.

There are other themes that are designed into the cross. Spikes represent his pain that he bore for us. A vine like structure suggests life within the cross. Numerous other themes can be noticed. But only if one draws near!

“Thousands of nails,  
thousands of prayers”

**Dimensions**  
**48”H x 32” W**

**Price : \$1700.00**

## Ministry Idea

The concept of the “cross of nails” can be applied to a specific prayer campaign in your church. Using nails to represent individual prayers of the people, this project can be used to commemorate a particular event such as a building program, ministry or special project of your church. When the cross is viewed, it represents all the prayers offered in regards to the ministry.

## Construction

The cross is made entirely from 16 penny nails. When the entire unit is together, it forms a rigid structure that can be easily mounted to the wall. The cross is powder coated to a gold vein color.

## Custom Sizes

This cross can be custom built to your place of installation. If you desire a particular size cross, we can quote a price and work to your specifications.
